Ysgol Brenin Harri'r VIII

IPAD/IPHONE BYOD INSTRUCTIONS

These instructions will help you to get your iPad or iPhone onto the BYOD network.

1. In Wi-Fi settings, select the appropriate BYOD network. In this example it is KHS_Pupil_BYOD. You may receive a message that looks like this, just tap “continue”

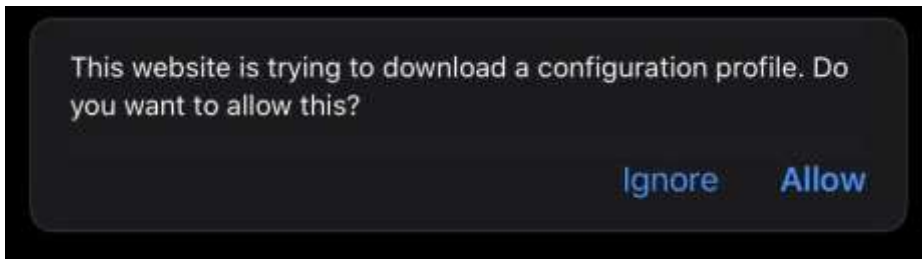

2. The next screen you should see is the following one. Enter your username (usually your normal network username, but followed with **.byod**) and password, and click “I Agree with Policy Below” to log in.

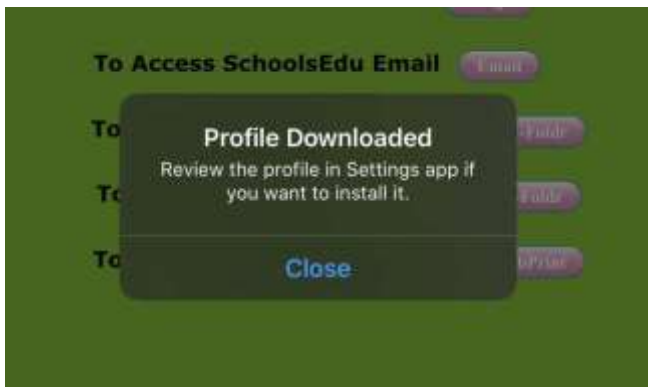

If this page doesn't automatically load for you, open Safari and try to browse to the website 1.1.1.1 and it ought to display then.

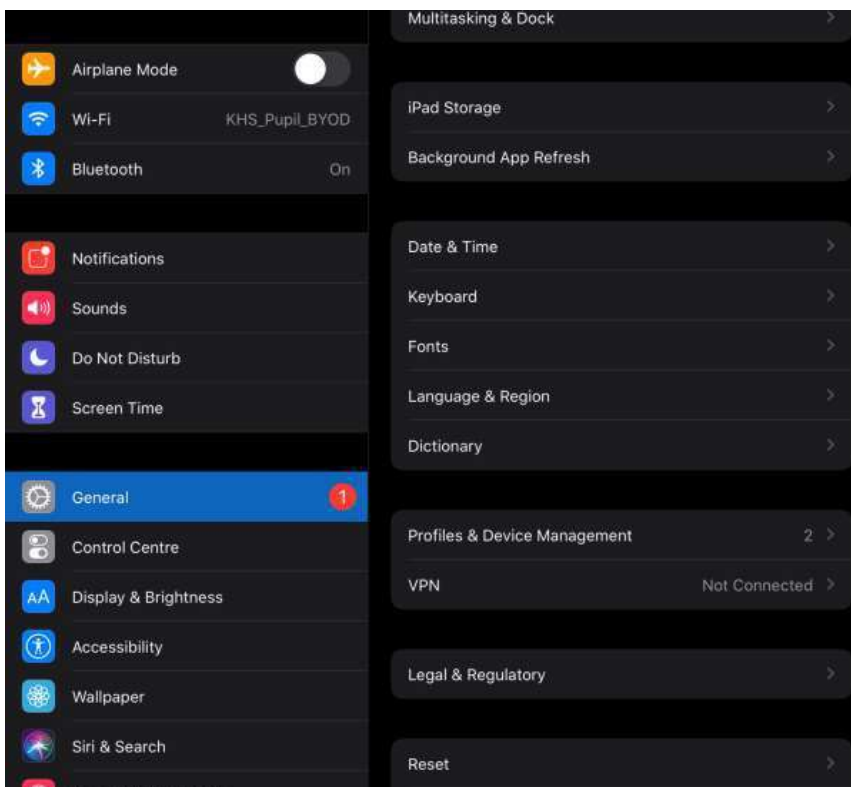

- If this is the first time you have used the device you need to type <http://172.16.210.20/getmitm> into a web browser and download the certificate.
- You will receive the following message, just tap “Allow” for the certificate to complete downloading.

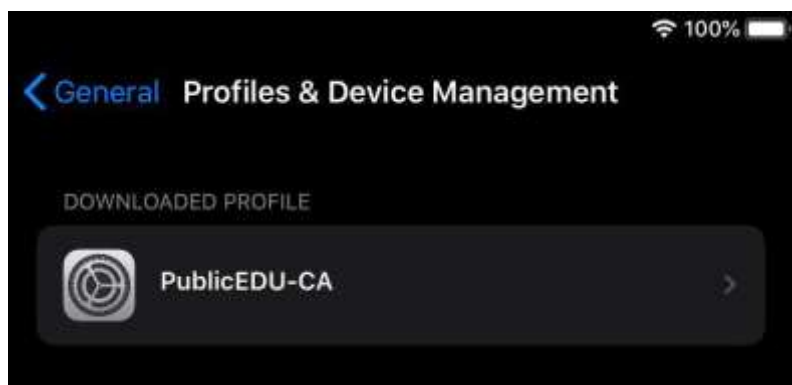

- Once you get this message, tap “Close”.

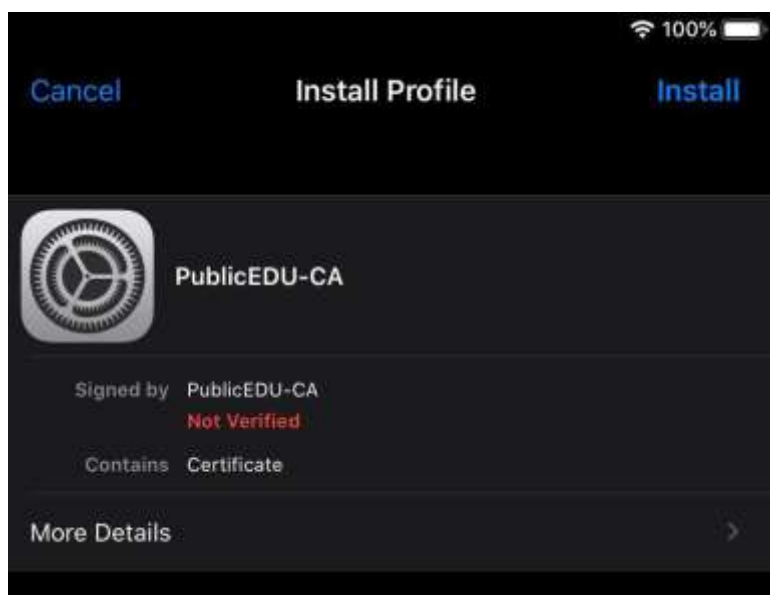

- You will then need to head to Settings, and tap General, and then tap on “Profiles” (This may display as Profile & Device Management on some iPads).

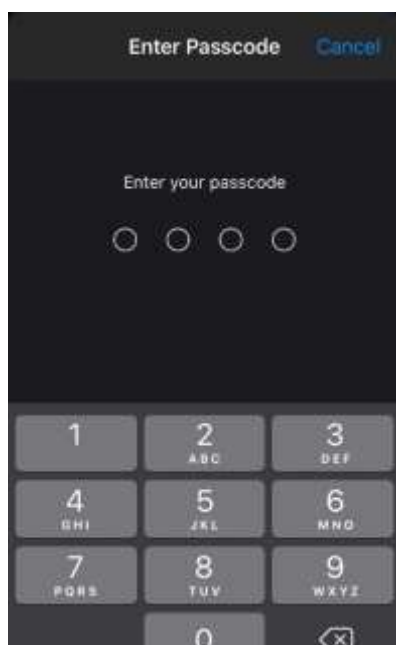

7. You will find the profile PublicEDU-CA located here, tap on it.

8. Tap "Install" in the top right hand corner.

9. You will be prompted to enter your passcode, you must enter it for this to continue.

10. Tap "Install" in the top right hand corner and then "Install" again
